Elevated Mobility

Optimizing time through
private aviation.

Our Background.

Whitesky Jet Asia is a premier aviation service provider under the Whitesky Group, a leading Indonesian aviation holding company. Specializing in high-end jet charter and comprehensive aircraft management, we bridge the gap between luxury, efficiency, and operational excellence.

Based at the strategic Halim Perdanakusuma International Airport in Jakarta, Whitesky Jet Asia leverages over a decade of group experience to deliver seamless air mobility solutions across the Indonesian archipelago and beyond.

Originally evolving from the established reputation of Whitesky Aviation (founded in 2010), the "Jet Asia" division was created to focus specifically on fixed-wing private jet operations. While our sister company leads the way in urban helicopter mobility (Helicity), Whitesky Jet Asia serves the corporate and VIP sectors with long-range, high-speed jet travel.

Today, the Whitesky Group also manages critical aviation infrastructure, including the Cengkareng Heliport and operations at Halim Perdanakusuma, ensuring our clients have exclusive, priority access to the most vital hubs in Indonesia.

We provide bespoke flight solutions tailored to the demanding schedules of business leaders, government officials, and luxury travelers.

On-Demand Charter: **Point-to-point travel with zero wait times.**

Corporate Shuttle: **Efficient group transport for site visits or regional meetings.**

Specialized Missions: **Medevac and urgent cargo services for the mining and energy sectors.**

Jet Charter Services

Aircraft Management

For owners who demand the benefits of jet ownership without the administrative burden, we offer a "turnkey" management solution.

Operations & Crewing: **Selection and training of world-class flight crews.**

Maintenance Oversight: **Ensuring the highest safety standards and technical dispatch reliability.**

Regulatory Compliance: **Navigating the complexities of Indonesian aviation law and international standards.**

Revenue Generation: **Optional chartering of your aircraft to offset ownership costs.**

Led by President Director Denon Prawiraatmadja and Director Augie Avianto, Whitesky Jet Asia is committed to "Embracing the Gravity of Connectivity." We don't just move people; we provide the time and privacy necessary for our clients to succeed in an increasingly fast-paced world.

“ Our mission is to redefine air mobility in Indonesia, making it a seamless extension of our clients' lifestyle and business operations. ”
